Importance: High

Hello Chris and all,

Short Report Out:

- Due to scheduling room conflicts I had to move the meeting to 12/19/18 which is the next available day at the Baldwin Park location. I just sent out the invite to all.
- Chris is it possible for you to send all of us a few bullets on where things are with DOGGR and the AllenCo Start Up Plan? Do we know if there are any planned Activities at the facility for this week and into next week?
- A Community Report was generated and sent from LACDPH and to the City Attorney's Office—I have been informed that the City is looking into the matter and particularly the drain where an odor has been identified by the community
- I have been informed by the City of La Attorney's Office that the Fenceline Monitoring Contractor is working on the "Fenceline Monitoring Plan" and we should all receive a copy for review and comment once it is available

Thank you.

All,

AllenCo plans on conducting the following activities the week of November 5th:

- Technicians will be walking around the facility and taking inventory of all potential leak points such as orifices and valves and tagging them with bar coded labels. This is for AQMD inventory regarding potential fugitive emission locations. AQMD does not consider the injection line relative to fugitive emissions but AllenCo chose to include it as well since it has clamps and that is a potential leak point.
- Technicians will be walking around the facility for the purpose of creating Process and Instrumentation Diagrams (P&IDs).

No valves will be opened during these activities.

2 technicians will be on location for 2-3 days.
